Attachments: Draft data memo to residents with EPA nitrate sample results v6-18-18 JAW edits.docx

Hi Heather and Tom,

I think we should involve ORC (Chuck Mikhalian) and I think we can't give Wood County the addresses. Perhaps we can give them the range of results?

Also, Heather thank you for starting the letter. I think starting with the PFAS letter was a good idea. I added a few minor edits and comments.

Have a good night,
Jenny

Subject: Next Steps - Getting nitrate information to 5 residents in WI with private well results

Hi Tom and Jenny,

I just spoke with Ryan about CSD follow-up. The goal is to finalize the CRL and Nebraska Nitrate data by June 29th. There are two things for GWDWB follow-up:

1. Determine next steps for being able to share with Barb at the Wood County Health Dept the addresses of the 5 residential wells we tested.
 - a. Barb asked Cheryl while they spoke today to set up a meeting to discuss this and Ryan wanted to coordinate with GWDWB to determine which branch should be the lead on this issue before a meeting is set-up. Is a meeting needed? – do we engage ORC on this Tom?
2. Draft a data memo like we did for the PFAS sample results that would be sent to each resident in follow-up to the emails that Cheryl sent them last week with their nitrate results. It would include a link to the Nitrate factsheet. I've attached the rough start of one.

Tom – I just wanted to note these two action items while they are fresh in my mind. I'll follow-up with you and Jenny tomorrow.

Best wishes,
Heather
